No

If possible to upgrade to post graduate

Go ahead

Improving faculties, career guidance counselling, sports facilities

Innitiating academic journal,  
Establishing a civil services coaching centre.

Try to improve in science stream

Giving your students opportunities to learn other things allows them to grow as a person and also apply some of the things they learned in the classes into something practical. Aside from that, you can organize clubs, seminars, and internships, where the students can join to expand their learning experience

# PARENT TEACHERS' ASSOCIATION FEEDBACK

## PARENTS TEACHERS' ASSOCIATION FEEDBACK:

1. 80.76 % of the parents responded that only one of their wards attended this College whereas few of them have 2, 3, 4 wards attended this College.
2. 65% of the parents responded that they heard about PTA from teachers, 18.6% said that they heard from other parents and few of them responded that they never heard.
3. 62.8% of parents responded that they attended the PTA meetings sometimes, 21.7% said that they always attended and 15.3% said that they never attended.
4. 74.3% percent responded that they were kept informed about PTA and its events
5. 92.2 percent of the parents felt welcome to attend PTA
6. 70 percent played an active role in PTA.
7. 92.3% of parents strongly agreed and agreed that the teachers played active role in PTA.
8. 92.2% of the parents agreed that their participation in PTA is vital to their wards.
9. 97.3% of the parents agreed that the communication between the college and the parents was good.
10. 98.6% of the parents strongly agreed that the teachers meet their ward's needs.
11. 91.6% of the parents agreed that they felt comfortable about approaching the College with questions, problem or complaint.
12. 90.9% of parents responded that teachers explained them how to help their wards at home and how their children are getting on.
13. 99.9% of the parents responded that the teachers expected their ward to work hard and set appropriate home works for them.
14. 90.9% of the parents responded that the College deals effectively with unacceptable behaviours.
15. 76.8% of the parents strongly agreed that the college treated their wards equally, fairly and were satisfied with the quality of education provided by the College.

## SUGGESTIONS FROM PARENTS

- To include practical in Arts subjects.
- To strengthen the relationship between teachers and parents.
- To introduce more streams for the benefits of their wards.
- To continue Spoken English classes to improve their wards who came from schools with poor English background.

**ACTION TAKEN:** The IQAC used to represent in the staff meeting by the coordinator or member. Whenever feedback has been analysed, the feedback is raised in the meeting for reference how to improve the quality of education in the institution. For the above suggestions collected from the parents, following has been done.

1. With the implementation of NEP 2020 in the College, the learning outcomes of each and every paper has been discussed and analysed in the Heads of Department meetings and teachers were requested to comply the methods of teaching relevant to the daily lives and needs of students.
2. The office bearers of the Parent Teachers Association are instructed by the Principal to conduct regular PTA meetings.
3. This is not the first time that parents have given such suggestion, and the impact was that in 2022, Bachelor of Science stream has been introduced in the College for the welfare of the Community.
4. To continue Spoken English Classes as part of Add-On courses in the College has been entrusted to the Skill Enhancement and Vocational Courses Committee of the College, which was recently constituted, to see into the matter.

He is very good principal he as like second parents

Very strict and good advisesor

He is very strict

Excellent

We found that principal are not good because he don't understand the students who are not rich who can't pay the fees on that day we can say last date when they asked permission also he don't accept us. Also please don't force students who can't pay the appeal why you say that if they don't pay or lost the form of appeal you have to arrest them that is bad words sir. Principal in our college is good but not all we can say principal lack of sympathy of students.

He is good and he's very good intelligence

Strict in a better way,very good and discipline

He is very strict and discipline

He very high educated, strict and disciplined which is very very good for us.

To improve the quality and introduce more courses

I'm hungry all the time coming to college

The college should have at least a common room 🤔

The college should have a playground of some sports..

I am always happy for further course and appreciate with a greatest heart to the teacher and colleagues when I will leave the College

Not only students but teachers also should be regular and should not take leaves unnecessary. But if one must do so, one must provide the students with a good teacher for officiating and the officiating teacher also should have qualifications and experiences so that the students will not have any problems. Regarding the donation for the building of the multi purpose hall i find it more of a demand than a donation as one of the teacher has pointed out that internal marks will not be display if the donation is not given. I personally find it aggressive and feels more of a demand , like how can internal marks be related with this donation...And lastly internal marks should be given according to the students work and not by setting a limit on how much should be given because no matter how hard i write my assignment the teacher cannot give more marks because of the limit they set, this is unfair because students from different college get good internal marks as compared to ours and i think this will only affect our future.

For the betterment of the students, the teacher should have good qualifications in their field

We Need more further studies like University in our districts. we want to pursue our further studies but we cannot effort in urban areas.

We need more teachers

Sngap Syiem College is the best college in Meghalaya

Our toilet is always dirty.

Our toilet is alway dirty,smelly

- 1) The school must have a common room for both boys and girls,
- 2) Strictly prohibited students from drinking tobacco(Smoking) especially in toilet,
- 3) Teachers must not allow students to talk and using mobile while teaching class,
- 4) Provide indoor games so that will helps students to over use mobile phone,
- 5)Teachers must conduct class test every months or everytime that will be easy for students to appear in any exam,
- 6)Students must dressed in good mannerly especially student with Uniforms,
- 7)Teachers and Students must have good connection between each other so that teachers feel

free to teach and if students don't understand they can ask the teachers.

8) If the college could implement English Speaking that will help students improve better communication with other's people from outside the college,

Thanks You.

the teacher,s should try to complete the courses on time

teacher,s must inform the student,s before hand ,if they cannot come for class .and they must try to complete the courses on time.

All the teachers should take responsibility and make sure that students should be discipline

Sngap Syiem college needs a big compound

1 the college they should not only provide the ncc or nss they should have provide or organize activities like training, coaching, fashion designer and many others ,so that the students can make their choice , what they want and also it will help them to get new ideas and experiences.

1 college should provide others activities not only nss and ncc .

2 there are more than 1000 students in the college but only 200 join nss and nss because more students want others activities to join to get experience .

3 if they have programs or other activities the college have to choose others student to encourage not only the students

4 the judges in dancing are not good.

Inspite of lack facilities compare to another colleges but yet the method of study afford through teachers ,staff and respect principal for the best of their Student is something extraordinary

There should be more book in the library

Homework assignments

This student has homework, assignment.

Infrastructure and compound

1. Teacher should not look down upon students.

2. When they have any function in a college the teacher who are judges in any program please don't take the students as you love you have to judge in a right way.

3. The teacher when you saw the bad results don't take students like doubt because you know when they are fail in exam they feel sad and they don't take responsibility anymore.

4. Teacher don't conduct test so many.

5. When teachers conduct test you have to give equal mark because we students we write same question same answer don't say the other students they don't prepare well we say only those who are prepare well because when we found friends who got highest marks but we found that we also we write same point that our problems.

6. Lada ki nonghikai Kim lah ban shim class na ki daw bapher<sup>2</sup> phi Phah officiate iano2 sngewbha Phah ia ki nonghikai ki ba la pass bha namar Lada ki ong ia ngi phi la sngewthuh

Our college is very good and the teacher had very intelligent

Need a clean toilet, easily available of drinking water, need more rooms,

Closing the college gate only for higher secondary section than the degree section and improve more books in library..

Thank you

I think the collge should have a proper uniform for degree also

Classrooms should be made 100% ICT.  
Introduction of local need based courses.

There should be an equitably and balanced distribution of works to all the staff. Introducing of smart classrooms and to have atleast a mini museum.....

1. There should be at least one more toilet in the staff room.
2. There should be a stretcher to carry the patient during emergency cases.

Needs more qualified Faculty with research background with doctoral degree.  
More ICT enabled classrooms, more computers, auditorium.

1. Overall improvement of the college is very much needed, which require cooperation from all staffs and management.
2. Computer for each department is required as we are not able to perform the assigned duty by the college authority.
3. Each department should have a projectors to enable to use ICT as only few rooms have projector
4. Raised platform is needed in front of the board
5. Water tank should be clean regularly
6. Need to appoint Full time cleaners to clean all classrooms , students toilets, staff toilet and the campus daily as cleanliness is one of the quality that the college should have
7. Need of full time principal and teachers in higher secondary to have a quality and standard education
8. Many more

Drinking water for the students to be provided at the earliest possible.  
To increase the number of books in the library in accordance with the NEP syllabus.
